- Access to SMEs

THOUGHT LEADERSHIP

- Industry-leading lead gen content
- A unique climate/fintech view
- Strong 'profit to the people' mission

PARTNERSHIP TIERS

- Silver, Gold and Platinum
- More co-marketing
- More co-selling
- Increased discounts

SEC Reporting Starts with Data from GLYNT

Emissions Baseline & Tracking

It's a no-brainer to start with data in a data-driven world. Collect data by site and prepare historical baselines. GLYNT's 60-day onboarding makes it easy.

Emissions Reductions & Offsets

Plan emissions reductions and track to plans with detailed, monthly data from GLYNT.

Stress-Test Financial Forecast

Use GLYNT's high-quality energy and emissions data to measure climate risk exposures. Look for hot spots and reduce.

Prepare for Audits

Efficiently support third-party audits with accurate, verifiable finance-grade data from GLYNT.

ABOUT GLYNT

GLYNT's mission is to enable businesses, homes and communities to produce and monetize their carbon emissions data. With advanced machine learning capabilities, GLYNT produces finance-grade emissions data for Scope 1 and 2 reporting, enabling finance, sustainability and energy teams to minimize reporting and climate risk. Customers around the world benefit from GLYNT data through operational savings and expanded access to capital. Learn more at <https://glynt.ai/> *#betterdatafortheplanet*
